

News Fount

Fountain Solutions for Newspapers

The 4C News Fount range is based on innovative technology and formulated for the next generation of high speed newspaper presses. Features include greater stability at high speed, quicker start up and minimising waste. A modern Fountain Solution that meets the latest requirements of the newest CTP technology in today's newspaper business.

Benefits

- Quick Start up
- Stable pH
- Anti corrosion Technology
- Safe for use with CTP
- OEM Approved
- Clean Label
- Reduces waste

Features	Advantages	Benefits
Clean Label	No Hazardous Labelling	safer to the environment
Low foam formulation	for all dampening systems	consistent performance
Exclusive corrosion package	Ultra low corrosion	Long press life
Unique desensitisers	fast, clean start ups	minimising waste

Directions to use :

Dosage between 2 and 3% concentration to reach a pH 4,5-5,5 depending on local water conditions. Control by conductivity and keeping the pH value within the most favourable range for printing with strong buffer capability.
